

Technical Data Sheet

Product: α -Olefin Synthetic PE Wax

Liowax-6000 is a low density polyethylene (LDPE) homopolymer in powder form.

General Properties:

Property	Typical Value
Appearance	White powder
Acid Number	Nil
Viscosity	600 @ 140 °C
Dropping Point °C	114
Density	0.91
Hardness, DMM (ASTM-D5)	< 4

Applications:

Liowax-6000 is an external lubricant in PVC, Masterbatch, Rubber Lubricant, Powder Coating, Hot Melt Adhesive, Cable Manufacturing.

Standard Packaging:

25-KG Laminated PP/PE/Paper Bag
